

MOHAMED WAELE

junior-level FrontEnd Developer

@ mohamedwael56187@gmail.com +201126992044 Cairo, Egypt in https://www.linkedin.com/in/mohamedwael56/ https://github.com/mohamedwael56?tab=repositories

EXPERIENCE

FrontEnd

Web Roots

June 2025 – June 2026 Cairo

- Implemented responsive user interfaces using React, JavaScript, HTML, and CSS, ensuring seamless performance across desktop, tablet, and mobile devices.
- Integrated REST APIs to fetch and display dynamic data, enhancing user experience and improving data accessibility.
- Identified, investigated, and resolved frontend bugs, contributing to improved application stability and user satisfaction.
- Improved website responsiveness and layout structure by optimizing CSS styles and enhancing mobile compatibility.
- Participated in code reviews, testing, and deployment activities while following coding standards and development best practices.
- Developed and maintained reusable React components to support new product features and improve consistency across the company's web applications.

EDUCATION

LL.B (Bachelor of Laws)

Cairo university
